

Improve your collaboration with Japanese partners

Target Audience

International organizations working with Japanese teams, partners, or leadership.

Challenge

Cultural differences in communication, decision-making, and collaboration can lead to misunderstandings, delays, or uncertainty in international teams.

Approach

The program helps teams:

- better understand Japanese communication and decision logic
- build trust in intercultural collaboration
- navigate cultural differences constructively
- collaborate more effectively across cultures

Format

- Interactive workshops
- Real-life business case discussions
- Reflection on concrete work situations
- Optional leadership coaching

Business Impact

- stronger international collaboration
- fewer misunderstandings
- increased trust between teams
- more effective cooperation with Japanese partners
